SUMMARY

MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in frontend development, REST API integration, CRUD operations, authentication, and responsive UI design.

Currently working as a **Backend Developer and Team Lead** on a **Core Banking System (CBS)** group project, where I am responsible for designing backend architecture, creating REST APIs, managing MongoDB schemas, implementing authentication and authorization, and coordinating development tasks among team members.

Passionate about building scalable real-world applications and continuously improving full-stack development skills.

EDUCATION

12th Complete, Full Stack Web Development Training – Red & White Skill Education dindoli, surat, gujrate

SKILLS

(**Frontend:** HTML5, CSS3, JavaScript, React.js, Redux Toolkit, Bootstrap • **Backend:** Node.js, Express.js, REST API, JWT Authentication, bcrypt.js • **Database:** MongoDB, Mongoose • **Tools:** Git, GitHub, VS Code, Postman • **Core Concepts:** CRUD Operations, Authentication & Authorization, API Integration, Responsive Design, Team Collaboration)

PROJECTS

Core Banking System (CBS) — Current Project

07/2026 – Present

Node.js, Express.js, MongoDB, Mongoose, JWT, React.js

- Working as a **Backend Developer and Team Lead** in a group-based MERN Stack project.
- Designing secure REST APIs for banking operations.
- Creating MongoDB schemas for users, customers, accounts, branches, and transactions.
- Implementing **JWT-based authentication and role-based authorization**.
- Managing backend architecture, API testing, and database integration.

- Leading the development team by assigning tasks and coordinating project progress.

Restorant Management System (POS), *Tech Stack: React.js, Redux Toolkit, Bootstrap, JSON Server*

Developed a restaurant management system for handling orders, menu management, billing, employee operations, and sales tracking through an interactive dashboard.

demo video Link : <https://drive.google.com/file/d/12m1ieAECMK1NoYUPnRG1GOvEeumjGSvb/view> 

HRMS, *Human Resource Managment System*

Tech Stack: React.js, Redux Toolkit, Bootstrap, JSON Server

Developed a complete HRMS with HR, Manager and Employee dashboards, attendance, leave, salary management, salary history tracking,

role-based authentication, CRUD operations and centralized state management.

github rep :<https://github.com/Prince9724/REACT-HRMS/tree/main/RestroDesk> 

demo video : https://drive.google.com/file/d/13m_9j_-T4NCTsTjKTvAXrNzXHVyJ9NgB/view 

Ecommerce, *E-Commerce Web Application*

Tech Stack: React.js, Bootstrap, REST API, Local Storage

Implemented product API integration, search & filter functionality, cart management, quantity/price calculations and responsive user

experience

github repo:<https://github.com/Prince9724/REACT/tree/main/eccommerce> 

Twitter, *twitter clone*

Tech Stack: React.js, Bootstrap, JSON Server

Developed a responsive social-media style interface with tweet management, reusable components and dynamic data handling.
